Research Assistant

Tsinghua University

03/2022 - Present

Beijing, China

Achievements/Tasks

- **Responsibility:** Oversee the automation and maintenance of the 'Carbon Monitor' databases, including CM, Power, China, EU, and Graced.
- Daily tasks include data crawling, cleansing, and visualization, primarily using Python and Tableau.
- **Accomplishment:** Development of Automated Power Generation Data Website and Twitter account.
- Developed an automated website(<https://cm-power-website.streamlit.app/>), capable of visualizing daily power generation data for up to 58 countries by sector. The website also allows users to download the data.
- Created an automated Twitter account(<https://x.com/CarbonmonitorX>), designed to crawl research papers from journals like Nature, Science, and PNAS. It uses ChatGPT to generate summaries, keywords, and abstracts from these papers, focusing on topics related to the environment, and tweets the results.

Senior billing specialist

Chang Tsi & Partners

10/2016 - 01/2019

Beijing, China
